#### Features of DSB Liferrafts;

- » Manufactured from double-coated corrosion and abrasion resistant rubber
- » Fully enclosed double skinned high visibility canopy complete with retro-reflective tape
- » Semi-rigid easy access boarding ramp
- » Large water pockets to ensure maximum stability when inflated
- » Fully insulated floor to ensure maximum thermal protection

Established in 1931 DSB is one of the most experienced producers of life-saving equipment for civil and military use. The life rafts are available in both throw over as well as davit launched (DL) types and are MED compliant. We offer an extensive range of life rafts to suit all purposes as well as a

range of Marine Evacuation Systems (MES) with slide and and chute solutions. DSB has built an extensive service network with more than 300 stations world wide, offering service of DSB liferafts, MES as well as the full range of DSB inflatable and semi rigid boats.
